ONE PARTNER MANUFACTURING
Contract manufacturing from prototype to commercialization

Concept & Prototype
Providing creative solutions through innovative project management and prototyping

Design & Development
Cost effective design consultation with a total focus on manufacturability

Engineering & Regulatory
Multi-disciplined technical staff with years of medical device experience

Manufacturing & Scalability
Global footprint for economical contract manufacturing

Quality & Reliability
Precision technologies, components and processes ensuring reliability and repeatability

Distribution & Fulfillment
Range of flexible value-added planning and logistics services to meet your needs

TOTAL CAPABILITIES

PROCESS
Injection Molding
Insert Molding
Wire & Cable Extrusion
Laser Cutting
Die Cutting
Tool Fabrication
Die Making

CONVERT
Laminations
Web Handling
Zoned Adhesives
Bull-Nose Transferring
Island Placement

ASSEMBLE
Cable Assemblies
Electrical Assemblies
Complex Assemblies
Battery-Powered Devices
Mechanical Assemblies
Final Packaged Product
Kitting

ULTIMATE COMPONENTS

Engineering Resins
Catheters
Tubing
Cables
PCB

Flex Circuits
Motors
Batteries
Cohesive Tapes
Medical Grade Adhesives

Cloths & Non-Wovens
Foams & Sponges
Hydrocolloids
Sensors
Metals
Biomedical Innovations is the premier medical device contract manufacturer. We deploy a One Partner strategy to work with our customers every step of the way.

**MANUAL ASSEMBLY**
- Fast turnaround
- Small to large volume runs
- Rapid response to changes

**SEMI-AUTOMATION**
- Balancing cost and quantity
- Alignment with launch plans
- Seamless transition to automation

**FULL AUTOMATION**
- Full validation
- Flexible automation platforms
- Maximize output for optimized cost

**MEDICAL DEVICE APPLICATIONS**
- Orthopedics
- Ablation
- Anesthesiology
- Biopsy
- Laparoscopy
- Surgery
- Gastroenterology
- Bariatrics
- Oncology
- Neurology
- Ostomy
- Patient Monitoring
- Diagnostics
- Stimulation
- Pulmonology
- Cardiology
- Gynecology
- Wound Care
- Cardiac Mapping
- Drug Delivery
- Pharmaceutical
- Life Sciences
- Combination Devices
- Urology
